

UNISON CORPORATION

Unison joins Association for Manufacturing Technology

New Unison Corporation recently joined the Association for Manufacturing Technology whose mission is to implement advanced manufacturing technology solutions in the U.S. and overseas. The Association maintains a 20,000 square foot Technology Service Center in the Shanghai Pudong Waigaoqiao Free Trade Zone to facilitate expansion and growth in China as well as they have offices located in both Beijing and Guangzhou. Unison first exhibited its equipment in China at the Chinese International Machine Tool Show (CIMTS) a year ago last April.

The New Unison Corporation markets its products on a worldwide basis under the TruFlute and DedTru tradenames with over 10,000 equipment installations serving the automotive, off-highway, plastics, aerospace, medical and petrochemical industries. Our CNC product line features the Model 1200 CNC Camless Profile Grinder as described above, the Model 688 CNC TruFlute, the Model 2150 CNC DedTru Centerless Grinding System, the Model 2200 CNC ID Grinder, the Model 2300 CNC TruCut End Gasher, the Model 2400 CNC Roughing Cutter Grinder, the Model 2500 CNC Punch Grinder, the Model 2600 CNC 5-Axis Tool Grinder/Re-Grinder, the Model 4000 CNC Super TruFlute with Hydrostatic Ways, the Model 8200 Flexible Grinding System and the Model 9000 Series Super TruFlute Production Tool Grinders. New Unison also offers our Models U-12 and U-20 general-purpose centerless grinders.
